[UKHD_CQC].[Locations_SCD]	This table contains all location information, including location ID, Location Name, registration date, Registration status, and other relevant details. This also includes the overall rating, report date and publication date. The JSON plaintext is included in this table.
[UKHD_CQC].[Locations_LinkTable_Current_Ratings]	This table includes provider registration ID, domain name, current ratings, as well as publication and report dates. It only contains current ratings for five domains and does not provide an overall rating.
[UKHD_CQC].[Locations_LinkTable_GAC_Service_Types]	This table contains location information and uses the 'name' column to determine whether the Care Home is residential or Nursing.
